Item 2.05. Costs Associated with Exit or Disposal Activities.

On June 24, 2016, ITT Inc. (the “Company”) finalized several restructuring actions in the Company’s Industrial Process business to reduce the overall cost structure of the business in response to persistently weak oil and gas prices and its negative impact on the level of expenditures of our customers. The Company expects to incur pre-tax cash costs, principally involuntary severance costs for approximately 270 employees, of approximately \$12 million to \$13 million relating to these restructuring actions. The Company expects to substantially complete these actions during the next 6 months. The benefits from these actions, after full implementation, are expected to yield annual pre-tax cash savings to the Company of approximately \$19 million. The benefit and cost estimates were included within the Company’s annual earnings estimates and range of expected restructuring and realignment costs for 2016 as disclosed on the Company’s year-end and first quarter 2016 earnings calls.
