## WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the U.S. Securities and Exchange Commission (the SEC). The SEC maintains a website at [www.sec.gov](http://www.sec.gov) on which you may access our SEC filings. In addition, we make available free of charge at [investors.itt.com](http://investors.itt.com) copies of materials we file with, or furnish to, the SEC as soon as reasonably practical after we electronically file or furnish these reports, as well as other important information that we disclose from time to time. Information contained on our website, or that can be accessed through our website, does not constitute a part of this Quarterly Report on Form 10-Q (this Report). We have included our website address only as an inactive textual reference and do not intend it to be an active link to our website.

Our corporate headquarters are located at 100 Washington Boulevard, 6th Floor, Stamford, CT 06902 and the telephone number of this location is (914) 641-2000.

## FORWARD-LOOKING AND CAUTIONARY STATEMENTS

Some of the information included herein includes forward-looking statements within the meaning of the Securities Exchange Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. We intend such forward-looking statements to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements are not historical facts, but rather represent only a belief regarding future events based on current expectations, estimates, assumptions and projections about our business, future financial results and the industry in which we operate, and other legal, regulatory and economic developments. These forward-looking statements include, but are not limited to, future strategic plans and other statements that describe the company's business strategy, outlook, objectives, plans, intentions or goals, and any discussion of future events and future operating or financial performance.

We use words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "future," "guidance," "project," "intend," "may," "plan," "potential," "project," "should," "target," "will," and other similar expressions to identify such forward-looking statements. Forward-looking statements are uncertain and, by their nature, many are inherently unpredictable and outside of ITT's control, and involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such forward-looking statements.

Where in any forward-looking statement we express an expectation or belief as to future results or events, such expectation or belief is based on current plans and expectations of our management, expressed in good faith and believed to have a reasonable basis. However, we cannot provide any assurance that the expectation or belief will occur or that anticipated results will be achieved or accomplished.

Among the factors that could cause our results to differ materially from those indicated by forward-looking statements are risks and uncertainties inherent in our business including, without limitation:

- uncertain global economic and capital markets conditions, which have been influenced by heightened geopolitical tensions, inflation, changes in monetary policies, the threat of a possible regional or global economic recession, trade disputes between the U.S. and its trading partners, political and social unrest, and the availability and fluctuations in prices of energy and commodities, including steel, oil, copper and tin;
  - fluctuations in interest rates and the impact of such fluctuations on customer behavior and on our cost of debt;
  - fluctuations in foreign currency exchange rates and the impact of such fluctuations on our revenues, customer demand for our products and on our hedging arrangements;
  - volatility in raw material prices and our suppliers' ability to meet quality and delivery requirements;
  - impacts and risk of liabilities from recent mergers, acquisitions, or venture investments, and past divestitures and spin-offs;
  - our inability to hire or retain key personnel;
  - failure to compete successfully and innovate in our markets;
  - failure to manage the distribution of products and services effectively;
  - failure to protect our intellectual property rights or violations of the intellectual property rights of others;
  - the extent to which there are quality problems with respect to manufacturing processes or finished goods;
-

- the risk of cybersecurity breaches or failure of any information systems used by the Company, including any flaws in the implementation of any enterprise resource planning systems;
- loss of or decrease in sales from our most significant customers;
- risks due to our operations and sales outside the U.S. and in emerging markets, including the imposition of tariffs and trade sanctions;
- fluctuations in demand or customers' levels of capital investment, maintenance expenditures, production, and market cyclicality;
- the risk of material business interruptions, particularly at our manufacturing facilities;
- risks related to government contracting, including changes in levels of government spending and regulatory and contractual requirements applicable to sales to the U.S. government;
- fluctuations in our effective tax rate, including as a result of changing tax laws and other possible tax reform legislation in the U.S. and other jurisdictions;
- changes in environmental laws or regulations, discovery of previously unknown or more extensive contamination, or the failure of a potentially responsible party to perform;
- failure to comply with the U.S. Foreign Corrupt Practices Act (or other applicable anti-corruption legislation), export controls and trade sanctions; and
- risk of product liability claims and litigation.

More information on factors that could cause actual results or events to differ materially from those anticipated is included in Part II, Item 1A, "[Risk Factors](#)" herein, as well as in our reports filed with the SEC, including our [Annual Report on Form 10-K](#) for the year ended December 31, 2023 (particularly under the caption "Risk Factors"), our Quarterly Reports on Form 10-Q and in other documents we file from time to time with the SEC.

The forward-looking statements included in this Report speak only as of the date of this Report. We undertake no obligation (and expressly disclaim any obligation) to update any forward-looking statements, whether written or oral or as a result of new information, future events or otherwise.

## NOTE 1 DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

### *Description of Business*

ITT Inc. is a diversified manufacturer of highly engineered critical components and customized technology solutions for the transportation, industrial, and energy markets. Unless the context otherwise indicates, references herein to “ITT,” “the Company,” and such words as “we,” “us,” and “our” include ITT Inc. and its subsidiaries. ITT operates through three reportable segments: Motion Technologies (MT), consisting of friction and shock and vibration equipment; Industrial Process (IP), consisting of industrial flow equipment and services; and Connect & Control Technologies (CCT), consisting of electronic connectors, fluid handling, motion control, composite materials and noise and energy absorption products. Financial information for our segments is presented in Note 3, [Segment Information](#).

### *Business Combination*

On January 19, 2024, we completed the acquisition of Svanehøj Group A/S (Svanehøj) for a purchase price of \$407.6, net of cash acquired. Subsequent to the acquisition, Svanehøj’s results are reported within our IP segment. Refer to Note 18, [Acquisitions and Divestitures](#), for more information.

### *Divestiture of Wolverine Business*

On July 22, 2024, the Company completed the sale of its Wolverine business to an unrelated third party for approximately \$171.

The disposal group met the criteria for classification as held for sale in accordance with Accounting Standards Codification (ASC) 360, “*Property, Plant, and Equipment*”. Accordingly, we presented the assets and liabilities associated with the disposal group separately as held for sale within our Consolidated Balance Sheet for the period ended June 29, 2024.

The Company evaluates all disposal transactions to determine whether such disposal qualifies as discontinued operations in accordance with ASC 205-20, “*Discontinued Operations*”. We concluded that the divestiture does not qualify as a discontinued operation.

Refer to Note 18, [Acquisitions and Divestitures](#), for more information.

### *Basis of Presentation*

The unaudited consolidated condensed financial statements have been prepared pursuant to the rules and regulations of the SEC and, in the opinion of management, reflect all known adjustments (which consist primarily of normal, recurring accruals, estimates and assumptions) necessary to state fairly the financial position, results of operations, and cash flows for the periods presented. The Consolidated Condensed Balance Sheet as of December 31, 2023, presented herein, has been derived from our audited balance sheet included in our Annual Report on Form 10-K ([2023 Annual Report](#)) for the year ended December 31, 2023, but does not include all disclosures required by accounting principles generally accepted in the United States (GAAP). We consistently applied the accounting policies described in the 2023 Annual Report in preparing these unaudited financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in our 2023 Annual Report.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Estimates are revised as additional information becomes available. Estimates and assumptions are used for, but not limited to, revenue recognition, unrecognized tax benefits, deferred tax valuation allowances, projected benefit obligations for postretirement plans, accounting for business combinations, goodwill and other intangible asset impairment testing, environmental liabilities and assets, allowance for credit losses, inventory valuation, and assets held for sale. Actual results could differ from these estimates.

ITT's quarterly financial periods end on the Saturday that is closest to the last day of the calendar quarter, except for the last quarterly period of the fiscal year, which ends on December 31<sup>st</sup>. ITT's second quarter for 2024 and 2023 ended on June 29, 2024 and July 1, 2023, respectively.

Certain prior year amounts have been reclassified to conform to the current year presentation.

## **NOTE 2**

### **RECENT ACCOUNTING PRONOUNCEMENTS**

From time to time, the Financial Accounting Standards Board (FASB) or other standards setting bodies issue new accounting pronouncements. Updates to the FASB's accounting standards are communicated through issuance of an Accounting Standards Update (ASU). The Company considers the applicability and impact of all ASUs on our business and financial results.

#### *Recently issued accounting pronouncements not yet adopted*

In November 2023, the FASB issued ASU No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the Chief Operating Decision Maker (CODM) and included within each reported measure of a segment's profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. This ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Adoption of the ASU should be applied retrospectively to all prior periods presented in the financial statements. We are currently evaluating the impact that this guidance will have on the disclosures within our financial statements, and will adopt this ASU for the year ending December 31, 2024.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This ASU requires disclosure of specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold. The amendment also includes other changes to improve the effectiveness of income tax disclosures, including further disaggregation of income taxes paid for individually significant jurisdictions. This ASU is effective for annual periods beginning after December 15, 2024. Adoption of this ASU should be applied on a prospective basis. Early adoption is permitted. We are currently evaluating the impact that this guidance will have on the disclosures within our financial statements, and expect to adopt this ASU for the year ending December 31, 2025.

During 2024, there were no other new accounting standards issued, or that are pending issuance, which are expected to have a material impact on our consolidated condensed financial statements upon adoption.

### NOTE 3 SEGMENT INFORMATION

The Company's segments are reported on the same basis used by our Chief Executive Officer, who is also our CODM, for evaluating performance and for allocating resources. Our three reportable segments are referred to as Motion Technologies, Industrial Process, and Connect & Control Technologies.

*Motion Technologies* manufactures brake components and specialized sealing solutions, shock absorbers and damping technologies primarily for the global automotive and rail transportation markets.

*Industrial Process* manufactures engineered fluid process equipment serving a diversified mix of customers in global industries such as chemical, energy, mining, and other industrial process markets and is a provider of plant optimization and efficiency solutions and aftermarket services and parts.

*Connect & Control Technologies* manufactures harsh-environment connector solutions, critical energy absorption, flow control components, and composite materials for the aerospace and defense, general industrial, medical, and energy markets.

Assets of our reportable segments exclude general corporate assets, which principally consist of cash, investments, deferred taxes, and certain property, plant and equipment. These assets are included within Corporate and Other, which is described further below.

Corporate and Other consists of corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs, as well as charges related to certain matters, including environmental liabilities, that are managed at a corporate level and are not included in segment results when evaluating performance or allocating resources. In addition, Corporate and Other includes research and development-related expenses associated with a subsidiary that does not constitute a reportable segment.

The following table presents our revenue for each segment and reconciles our total segment revenue to total consolidated revenue.

	Three Months Ended		Six Months Ended

*Contract Assets and Liabilities*

Contract assets consist of unbilled amounts where revenue recognized exceeds customer billings, net of allowances for credit losses. Contract assets are included in other current assets and other non-current assets in our Consolidated Condensed Balance Sheets. Contract liabilities consist of advance customer payments and billings in excess of revenue recognized. Contract liabilities are included in accrued liabilities and other non-current liabilities in our Consolidated Condensed Balance Sheets.

The following table represents our net contract assets and liabilities.

As of the Period Ended		June 29, 2024		December 31, 2023
Current contract assets	\$	47.5	\$	25.8
Non-current contract assets		1.5		1.6
Current contract liabilities <sup>(a)</sup>		(137.1)		(95.9)
Non-current contract liabilities		(4.5)		(4.5)
<b>Net contract liabilities</b>	<b>\$</b>	<b>(92.6)</b>	<b>\$</b>	<b>(73.0)</b>

(a) The increase in current contract liabilities from December 31, 2023 to June 29, 2024 was primarily driven by the acquisition of Svanehøj. Refer to Note 18, [Acquisitions and Divestitures](#), for further information.

During the three and six months ended June 29, 2024, we recognized revenue of \$36.0 and \$84.0 related to contract liabilities as of December 31, 2023, respectively. The aggregate amount of the transaction price allocated to unsatisfied or partially satisfied performance obligations as of June 29, 2024 was \$1,423.1. Of this amount, we expect to recognize approximately \$840 to \$860 of revenue during the remainder of 2024.

## NOTE 5 INCOME TAXES

The following table summarizes our income tax expense and effective tax rate (ETR).

	Three Months Ended		Six Months Ended	
	June 29, 2024	July 1, 2023	June 29, 2024	July 1, 2023
Income tax expense	\$ 33.0	\$ 30.6	\$ 65.8	\$ 50.7
Effective tax rate	21.5 %	21.9 %	22.1 %	19.5 %

The decrease in the ETR for the three months ended June 29, 2024 was due to the recognition of a U.S. federal deferred tax asset as part of a prior year acquisition. The increase in the ETR for the six months ended June 29, 2024 was due to prior year benefits of \$16.3 from valuation allowance reversals on deferred tax assets in Germany and \$4.9 from filing an amended 2017 consolidated federal tax return. These benefits were partially offset by a prior year expense of \$14.1 relating to an Italian tax audit settlement covering tax years 2016-2022.

In October 2021, more than 135 countries and jurisdictions agreed to participate in a “two-pillar” international tax approach developed by the Organisation for Economic Co-operation and Development (OECD), which includes establishing a global minimum corporate tax rate of 15 percent. The OECD published Tax Challenges Arising from the Digitalisation of the Economy — Global Anti-Base Erosion Model Rules (Pillar Two) in December 2021 and subsequently issued additional commentary and administrative guidance clarifying several aspects of the model rules. Since the model rules have been released, many countries have now enacted Pillar Two-related laws, some of which became effective January 1, 2024, and it is anticipated that many more will follow suit throughout 2024. As of June 29, 2024, the Company does not expect Pillar Two taxes to have a significant impact on its 2024 financial statements.

The Company operates in various tax jurisdictions and is subject to examination by tax authorities in these jurisdictions. The Company is currently under examination in several jurisdictions including China, Czechia, Germany, India, Italy, and the U.S. The estimated tax liability calculation for unrecognized tax benefits considers uncertainties in the application of complex tax laws and regulations in various tax jurisdictions. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the unrecognized tax benefit. Over the next 12 months, the net amount of the tax liability for unrecognized tax benefits in foreign and domestic jurisdictions could decrease by approximately \$0.5 due to changes in audit status, expiration of statutes of limitations and other events.

## NOTE 6 EARNINGS PER SHARE DATA

The following table provides a reconciliation of the data used in the calculation of basic and diluted earnings per share from continuing operations attributable to ITT.

### *Government Assistance (ASU 2021-10)*

ASU 2021-10 requires entities to provide information about the nature of transactions, related policies and effect of government grants on an entity's financial statements. In particular, in Italy, to qualify for an energy subsidy a company must apply for and receive a certificate attesting that the company is an "energy and gas consuming company" (high energy consumption connected to the production cycle). The amount of subsidies granted is calculated based on a percentage of actual consumption, ranging from 25% to 40%. One of our Italian subsidiaries within our MT segment obtained this certificate and was granted energy subsidies from the Italian government beginning in April 2022. This program concluded in the second quarter of 2023. Accordingly, no energy subsidies were granted for the three or six months ended June 29, 2024. For the three and six months ended July 1, 2023, we recognized a benefit of \$2.4 and \$6.3, respectively, related to energy subsidies, which we recorded within Costs of revenue in our Consolidated Condensed Statements of Operations. There was no other material government assistance received by the Company or any of our subsidiaries during the periods.

## NOTE 9 OTHER CURRENT AND NON-CURRENT ASSETS

#### Supply Chain Financing

The Company has supply chain financing (SCF) programs in place under which participating suppliers may elect to obtain payment from an intermediary. The Company confirms the validity of invoices from participating suppliers and agrees to pay the intermediary an amount based on invoice totals. The majority of amounts payable under these programs are due within 90 to 180 days and are considered commercially reasonable. There are no assets pledged as security or other forms of guarantees provided for the committed payments. As of June 29, 2024 and December 31, 2023, there were \$19.6 and \$19.7, respectively, of outstanding amounts payable to suppliers who have elected to participate in these SCF programs. These amounts were recorded within Accounts payable in our Consolidated Condensed Balance Sheets.

(a) The associated weighted average interest rates as of June 29, 2024 and December 31, 2023 were 5.60% and 5.61%, respectively. Outstanding commercial paper for both periods had maturity terms less than three months from the date of issuance.

(b) Our long-term debt is primarily related to a term loan that we entered into in January 2024 in connection with the acquisition of Svanehøj. See additional details in section titled, "Term Loan", below.

### Revolving Credit Agreement

On August 5, 2021, we entered into a revolving credit facility agreement with a syndicate of third party lenders including Bank of America, N.A., as administrative agent (the 2021 Revolving Credit Agreement). Upon its effectiveness, this agreement replaced our existing \$500 revolving credit facility due November 2022. The 2021 Revolving Credit Agreement matures in August 2026 and provides for an aggregate principal amount of up to \$700. The 2021 Revolving Credit Agreement provides for a potential increase of commitments of up to \$350 for a possible maximum of \$1,050 in aggregate commitments at the request of the Company and with the consent of the institutions providing such increase of commitments.

On May 10, 2023, we entered into the First Amendment (the Amendment) to the Company's 2021 Revolving Credit Agreement. In connection with the phase out of LIBOR as a reference interest rate, the Amendment replaced LIBOR as a benchmark for United States Dollar revolving borrowings with the term secured overnight financing rate (Term SOFR), and replaced LIBOR as a benchmark for Euro swing line borrowings with the euro overnight short-term rate (ESTR). The Amendment did not have a significant impact on the Company's consolidated condensed financial statements.

Since the Amendment, the interest rate per annum on the 2021 Revolving Credit Agreement is based on the term SOFR of the currency we borrow in, plus a margin of 1.1%. As of June 29, 2024 and December 31, 2023, we had no outstanding borrowings under the 2021 Revolving Credit Agreement. There is a 0.15% fee per annum applicable to the commitments under the 2021 Revolving Credit Agreement. The margin and fees are subject to adjustment should the Company's credit ratings change.

As of June 29, 2024 and December 31, 2023, we had no outstanding obligations under the 2021 Revolving Credit Agreement.

The 2021 Revolving Credit Agreement contains customary affirmative and negative covenants that, among other things, will limit or restrict our ability to: incur additional debt or issue guarantees; create certain liens; merge or consolidate with another person; sell, transfer, lease or otherwise dispose of assets; liquidate or dissolve; and enter into restrictive covenants. Additionally, the 2021 Revolving Credit Agreement requires us not to permit the ratio of consolidated total indebtedness to consolidated earnings before interest, taxes, depreciation, amortization, and other special, extraordinary, unusual, or non-recurring items (adjusted consolidated EBITDA) (leverage ratio) to exceed 3.50 to 1.00, with a qualified acquisition step up immediately following such qualified acquisition of 4.00 to 1.00 for four quarters, 3.75 to 1.00 for two quarters thereafter, and returning to 3.50 to 1.00 thereafter.

As of June 29, 2024, all financial covenants (e.g., leverage ratio) associated with the 2021 Revolving Credit Agreement were within the prescribed thresholds.

### Term Loan

On January 12, 2024, ITT Italia S.r.l. (ITT Italia), an indirect wholly owned subsidiary of ITT, entered into a facility agreement (the ITT Italia Credit Agreement), among the Company, as a guarantor, ITT Italia, as borrower, and BNP Paribas, Italian Branch, as bookrunner, sole underwriter and global coordinator, mandated lead arranger and agent.

The ITT Italia Credit Agreement has an initial maturity of three years (January 2027) and provides for term loan borrowings in an aggregate principal amount of €300 (or \$328.9), €275 (or \$301.5) of which was used to finance the Company's acquisition of Svanehøj, which closed on January 19, 2024. Debt issuance costs were \$1.8 and will be amortized over the term of the debt.

The interest rate per annum on the ITT Italia Credit Agreement is based on the EURIBOR rate for Euros, plus a margin of 1.00%. The margin and fees are subject to adjustment should the Company's credit ratings change.

The ITT Italia Credit Agreement contains customary affirmative and negative covenants, as well as financial covenants (e.g., leverage ratio), that are similar to those contained in our 2021 Revolving Credit Agreement, as described above. As of June 29, 2024, the Company was in compliance with all covenants.

Total outstanding borrowings under the facility were €175, or \$187.2, as of June 29, 2024. The following table provides the future maturities related to the outstanding balance as of June 29, 2024.

2024	\$	—

## NOTE 14 LONG-TERM INCENTIVE EMPLOYEE COMPENSATION

Our long-term incentive plan (LTIP) costs are primarily recorded within general and administrative expenses in our Consolidated Condensed Statements of Operations. The following table summarizes our LTIP costs.

	Three Months Ended		Six Months Ended	
	June 29, 2024	July 1, 2023	June 29, 2024	July 1, 2023
Equity-based awards	\$ 6.7	\$ 5.4	\$ 13.7	\$ 10.1
Liability-based awards	0.6	—	1.3	0.8
<b>Total share-based compensation expense</b>	<b>\$ 7.3</b>	<b>\$ 5.4</b>	<b>\$ 15.0</b>	<b>\$ 10.9</b>

As of June 29, 2024, there was \$44.6 of total unrecognized compensation cost related to non-vested equity awards. This cost is expected to be recognized ratably over a weighted-average period of 2.0 years. Additionally, unrecognized compensation cost related to liability-based awards was \$4.1, which is expected to be recognized ratably over a weighted-average period of 2.1 years.

### Year-to-Date 2024 LTIP Activity (Equity-based Awards)

The majority of our LTIP awards are granted during the first quarter of each year and have three-year service periods. These awards either vest equally each year or at the completion of the three-year service period. During the six months ended June 29, 2024, we granted the following LTIP awards as provided in the table below:

	# of Awards Granted	Weighted Average Grant Date Fair Value Per Share
Restricted stock units (RSUs)	0.1	\$ 128.05
Performance stock units (PSUs)	0.1	\$ 147.06

During the six months ended June 29, 2024 and July 1, 2023, a nominal amount of non-qualified stock options were exercised resulting in proceeds of \$0.2 and \$0.4, respectively. During the six months ended June 29, 2024 and July 1, 2023, RSUs of 0.1 and 0.1, respectively, vested and were issued. During the six months ended June 29, 2024 and July 1, 2023, PSUs of 0.1 and 0.1 that vested on December 31, 2023 and 2022, respectively, were issued.

## **NOTE 15 CAPITAL STOCK**

On October 30, 2019, the Board of Directors approved an indefinite term \$500 open-market share repurchase program (the 2019 Plan). On October 4, 2023, the Board of Directors approved an indefinite term \$1,000 open-market share repurchase program (the 2023 Plan).

During the three and six months ended June 29, 2024, the Company repurchased and retired 0.6 shares for \$79.0. During the three and six months ended July 1, 2023, the Company repurchased and retired 0.3 shares for \$30.0 and 0.7 shares for \$60.0, respectively. The repurchases the Company made during the second quarter of 2024 exhausted the remaining capacity under the 2019 Plan. As of June 29, 2024, there was \$1,000 of remaining authorization left under the 2023 Plan.

Separate from the open-market share repurchase program, the Company withholds shares of common stock in settlement of employee tax withholding obligations due upon the vesting of equity-based compensation awards. During the three and six months ended June 29, 2024, the Company withheld a nominal number of shares and 0.1 shares for \$0.3 and \$12.8, respectively. During the three and six months ended July 1, 2023, the Company withheld a nominal number of shares and 0.1 shares for \$0.2 and \$6.4, respectively.

## **NOTE 16 COMMITMENTS AND CONTINGENCIES**

From time to time, we are involved in litigation, claims, government inquiries, investigations and proceedings, including but not limited to those relating to environmental exposures, intellectual property matters, personal injury claims, product liabilities, regulatory matters, commercial and government contract issues, employment and employee benefit matters, commercial or contractual disputes, and securities matters.

Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including our assessment of the merits of the particular claim, as well as our current reserves and insurance coverage, we do not expect that such legal proceedings will have any material adverse impact on our financial statements, unless otherwise noted below. However, there can be no assurance that an adverse outcome in any of the proceedings described below will not result in material fines, penalties or damages, changes to the Company's business practices, loss of (or litigation with) customers or a material adverse effect on our financial statements.

### ***Environmental Matters***

In the ordinary course of business, we are subject to federal, state, local, and foreign environmental laws and regulations. We are responsible, or are alleged to be responsible, for ongoing environmental investigation and site remediation. These sites are in various stages of investigation or remediation and in many of these proceedings our liability is considered de minimis. We have received notification from the U.S. Environmental Protection Agency, and from similar state and foreign environmental agencies, that a number of sites formerly or currently owned or operated by ITT, and other properties or water supplies that may be or have been impacted from those operations, contain disposed or recycled materials or wastes and require environmental investigation or remediation. These sites include instances where we have been identified as a potentially responsible party under federal and state environmental laws and regulations.

The following table provides a rollforward of our estimated environmental liability.

For the Six Months Ended	June 29, 2024	July 1, 2023
Environmental liability - beginning balance	\$ 56.0	\$ 57.1
Change in estimates for pre-existing accruals	0.3	0.7
Payments	(2.3)	(2.3)
Foreign currency	—	0.1
Environmental liability - ending balance	\$ 54.0	\$ 55.6

Environmental-related assets, including estimated recoveries from insurance providers and other third parties, were \$8.2 and \$10.0 as of June 29, 2024 and December 31, 2023, respectively.

The following table illustrates the reasonably possible high range of estimated liability and number of active sites.

As of the Period Ended	June 29, 2024	December 31, 2023
High-end estimate of environmental liability	\$ 94.9	\$ 98.2
Number of open environmental sites	26	26

As actual costs incurred at identified sites in future periods may vary from our current estimates given the inherent uncertainties in evaluating environmental exposures, management believes it is possible that the outcome of these uncertainties may have a material adverse effect on our financial statements.

## NOTE 17 DERIVATIVE FINANCIAL INSTRUMENTS

The Company is exposed to various market risks relating to its ongoing business operations. From time to time, we use derivative financial instruments to mitigate our exposure to certain of these risks, including foreign exchange rate fluctuations. By using derivatives, the Company is further exposed to credit risk. Our exposure to credit risk includes the counterparty's failure to fulfill its financial obligations under the terms of the derivative contract. The Company attempts to minimize its exposure by avoiding concentration risk among its counterparties and by entering into transactions with creditworthy counterparties.

### Foreign Currency Derivative Contracts

The Company enters into foreign currency forward or option contracts to mitigate foreign currency risk associated with transacting with international customers, suppliers, and subsidiaries. The notional amounts and fair values of our outstanding foreign currency derivative contracts, which are recorded within Other current assets in our Consolidated Condensed Balance Sheets, were as follows:

As of the Period Ended	June 29, 2024	December 31, 2023
Notional amount (U.S. dollar equivalent)	\$ 94.4	\$ 258.4
Fair value of foreign currency derivative contracts <sup>(a)</sup>	\$ 3.2	\$ 3.8

(a) Our foreign currency derivative contracts are classified within Level 2 of the fair value hierarchy because these contracts are not actively traded and the valuation inputs are based on market observable data of similar instruments.

Gains or losses arising from changes in fair value of our foreign currency derivative contracts are recorded within General and administrative expenses in our Consolidated Condensed Statements of Operations, and were as follows:

	Three Months Ended		Six Months Ended	
	June 29, 2024	July 1, 2023	June 29, 2024	July 1, 2023
Loss on foreign currency derivative contracts <sup>(b)</sup>	\$ (1.2)	\$ (2.1)	\$ (3.4)	\$ (3.2)

(b) None of our derivative contracts were designated as hedging instruments under ASC 815 - *Derivatives & Hedging*.

The cash flow impact upon settlement of our foreign currency derivative contracts is included in operating activities in our Consolidated Condensed Statements of Cash Flows. During the six months ended June 29, 2024 and July 1, 2023, net cash (outflows)/inflows from foreign currency derivative contracts were \$(3.5) and \$4.8, respectively.

## NOTE 18 ACQUISITIONS AND DIVESTITURES

### *Acquisition of Svanehøj Group A/S (Svanehøj)*

On January 19, 2024, the Company completed the acquisition of 100% of the privately held stock of Svanehøj for a purchase price of \$407.6, net of cash acquired of \$28.0. Svanehøj is a Denmark-based supplier of pumps and related aftermarket services with leading positions in cryogenic applications for the marine sector. Svanehøj's results are reported within our IP segment. Svanehøj employs approximately 400 employees and has operations in Denmark, Singapore and France. Svanehøj had sales of approximately \$148 in 2023.

The primary areas of the purchase price allocations that are not yet finalized relate to the valuation of certain tangible and intangible assets, liabilities, income tax, and residual goodwill, which represents the excess of the purchase price over the fair value of the net tangible and other intangible assets acquired. The Company expects to obtain the information necessary to finalize the fair value of the net assets and liabilities during the measurement period, not to exceed one year from respective the acquisition date. Changes to the preliminary estimates of the fair value during the measurement period will be recorded as adjustments to those assets and liabilities with a corresponding adjustment to goodwill in the period they occur.

### *Acquisition of Micro-Mode Products, Inc. (Micro-Mode)*

On May 2, 2023, the Company completed the acquisition of 100% of the privately held stock of Micro-Mode for a purchase price of \$79.0, net of cash acquired. Micro-Mode is a specialty designer and manufacturer of high-bandwidth radio frequency (RF) connectors for harsh environment defense and space applications. Micro-Mode has a single manufacturing site near San Diego, California. Subsequent to the acquisition, Micro-Mode's results are reported within our CCT segment.

As of June 29, 2024, the allocation of the purchase price to the assets acquired and liabilities assumed was finalized related to our acquisition of Micro-Mode.

The assets acquired and liabilities assumed for both our Svanehøj and Micro-Mode acquisitions were recorded at fair value and are shown in the table below.

<i>Allocation of Purchase Price</i>	<i>Micro-Mode (Final)</i>		<i>Svanehoj (Preliminary)</i>	
Receivables	\$	2.7	\$	22.4
Inventory		5.3		39.8
Plant, property and equipment		6.1		19.1
Goodwill <sup>(a)</sup>		44.9		215.4
Other intangible assets		28.7		212.6
Other assets		0.2		9.0
Accounts payable and accrued liabilities		(2.6)		(28.0)
Other liabilities		(6.3)		(52.9)
Contract liabilities		—		(29.8)
<b>Net assets acquired</b>	<b>\$</b>	<b>79.0</b>	<b>\$</b>	<b>407.6</b>

(a) Goodwill related to the acquisition of Svanehøj is primarily attributable to future economic benefits expected from our entrance into the marine sector, our expanded presence in the energy market, and geographic expansion. Goodwill arising from acquisitions is not expected to be deductible for income tax purposes.

Pro forma results of operations have not been presented because the acquisitions were not deemed significant as of the acquisition date.

### Subsequent Event - Divestiture of Wolverine Business

On July 22, 2024, the Company completed the sale of its Wolverine business to an unrelated third party for approximately \$171. Wolverine was part of the Company's Motion Technologies segment.

The disposal group met the criteria for classification as held for sale within the Consolidated Balance Sheet as of the period ended June 29, 2024. The following table presents the carrying amounts of the major classes of assets and liabilities that were classified as held for sale:

As of the Period Ended	June 29, 2024
<b>Assets held for sale</b>	
Current assets held for sale:	
Cash and cash equivalents	\$ 14.9
Receivables, net	32.7
Inventories	44.5
Other current assets	0.4
<b>Total current assets held for sale</b>	<b>92.5</b>
Non-current assets held for sale:	
Plant, property and equipment, net	26.1
Goodwill	16.0
Other intangible assets, net	9.4
Other non-current assets	8.5
<b>Total non-current assets held for sale</b>	<b>60.0</b>
<b>Total assets held for sale</b>	<b>\$ 152.5</b>
<b>Liabilities held for sale</b>	
Current liabilities held for sale:	
Accounts payable	\$ 22.3
Accrued and other current liabilities	7.1
<b>Total current liabilities held for sale</b>	<b>29.4</b>
Non-current liabilities held for sale:	
Postretirement benefits	2.3
Other non-current liabilities	3.2
<b>Total non-current liabilities held for sale</b>	<b>5.5</b>
<b>Total liabilities held for sale</b>	<b>\$ 34.9</b>

### Subsequent Event - Acquisition of kSARIA Business

On July 30, 2024, the Company entered into a definitive agreement to acquire 100% of the outstanding shares of privately held kSARIA Parent, Inc., the parent corporation of kSARIA Holding Corporation (kSARIA), for a purchase price of approximately \$475, subject to customary closing adjustments. The acquisition is expected to close during the third quarter of 2024, subject to the satisfaction of the closing conditions set forth in the definitive agreement. kSARIA is a leading manufacturer of mission-critical connectivity solutions primarily for the aerospace and defense market. kSARIA is headquartered in New Hampshire, with operations across the U.S. and Mexico and has approximately 1,000 employees. kSARIA and its acquired subsidiaries generated sales of approximately \$175 in 2023. Upon closing of the transaction, kSARIA will become part of our CCT segment.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(In millions, except per share amounts, unless otherwise stated)

### OVERVIEW

ITT Inc. is a diversified manufacturer of highly engineered critical components and customized technology solutions for the transportation, industrial, and energy markets. We manufacture components that are integral to the operation of systems and manufacturing processes in these key markets. Our products enable functionality for applications where reliability and performance are critically important to our customers and the users of their products.

Our businesses share a common, repeatable operating model centered on our engineering capabilities. Each business applies its technology and engineering expertise to solve our customers' most pressing challenges. Our applied engineering provides a valuable business relationship with our customers given the critical nature of their applications. This in turn provides us with unique insight to our customers' requirements and enables us to develop solutions to assist our customers in achieving their business goals. Our technology and customer intimacy produce opportunities to capture recurring revenue streams, aftermarket opportunities and long-lived platforms from original equipment manufacturers (OEMs).

Our product and service offerings are organized into three reportable segments: Motion Technologies (MT), Industrial Process (IP), and Connect & Control Technologies (CCT). See Note 3, [Segment Information](#), to the Consolidated Condensed Financial Statements for a summary description of each segment. Additional information is also available in our [2023 Annual Report](#) within Part I, Item 1, "Description of Business."

All comparisons included within Management's Discussion and Analysis of Financial Condition and Results of Operations refer to the comparable three and six months ended July 1, 2023, unless stated otherwise.

#### **Macroeconomic Conditions**

During the second quarter of 2024, there has been continued uncertainty in the global economy, which has been, and will continue to be, influenced by a number of external factors, which are described below.

#### **Israel-Hamas Conflict**

Throughout 2024, the Israel-Hamas conflict, which escalated in October 2023, has been ongoing. Our operations in Israel are limited to Habonim Industrial Valves and Actuators Ltd. (Habonim), which we acquired in April 2022 and is part of our IP segment. While there has been no material impact on our business to date, further escalation of this conflict, or an escalation of the conflict between Israel and Hezbollah in southern Lebanon, could result in supply chain disruptions, inflation, workforce disruptions, demand fluctuations, or the inability to fulfill customer requests in the region. We are closely monitoring this developing situation, and are unable to reasonably estimate any future impacts on our business and financial results at this time.

### *Inflationary Pressures*

Since 2020, the cost of energy and of raw materials we use in our production processes, including commodities such as steel, oil, copper, and tin, have significantly increased. The rising prices are mainly a result of supply chain disruptions primarily caused by the COVID-19 pandemic and the ongoing Russia-Ukraine and Israel-Hamas conflicts.

In 2022 and 2023, central banks around the world raised interest rates to counter inflation. Higher interest rates have increased our cost of debt and could adversely impact consumer behavior, including demand for our products.

The manufacturing industry continues to experience a skilled labor shortage, which has created difficulties in attracting and retaining factory employees and has resulted in higher labor costs.

Global macroeconomic conditions have led and may continue to lead to decreased demand for our products, increased costs, and reduced operating margins. We have been able to offset most of these negative impacts through pricing actions and productivity savings, which we continue to pursue. Future impacts on our business and financial results as a result of these conditions are not estimable at this time, and depend, in part, on the extent to which these conditions improve or worsen, which remains uncertain. For additional discussion of the risks related to global macroeconomic conditions, see Part I, Item 1A, "Risk Factors" in our [2023 Annual Report](#).

## EXECUTIVE SUMMARY

The following table provides a summary of key performance indicators for the second quarter of 2024 as compared to the second quarter of 2023.

Revenue	Operating Income	Operating Margin	EPS
\$906	\$159	17.6%	\$1.45
9% Increase	12% Increase	60 bps	11% Increase
Organic Revenue*	Adjusted Operating Income*	Adjusted Operating Margin*	Adjusted EPS*
\$884	\$163	18.0%	\$1.49
6% Increase	15% Increase	100 bps	12% Increase

\*Represents a non-GAAP financial measure

Further details related to these results are contained elsewhere in the Discussion of Financial Results section. Refer to the section titled "[Key Performance Indicators and Non-GAAP Measures](#)" for definitions and reconciliations between GAAP and non-GAAP metrics, including organic revenue, adjusted operating income, adjusted operating margin, and adjusted EPS.

Our second quarter 2024 results are summarized below:

- Revenue of \$905.9 increased by \$72.0 due to higher sales volume, particularly within MT's Friction original equipment (OE) and KONI businesses, CCT's connectors and components businesses, and IP's aftermarket business. In addition, the acquisitions of Svanehøj and Micro-Mode contributed \$35.0 to total revenue growth. The increase in revenue during the period was partially offset by unfavorable foreign currency translation of \$12.6.
- Operating income of \$159.0 increased by \$17.0 due to higher sales volume and productivity savings. The increase in operating income was partially offset by higher material, labor and overhead costs, stemming from continued supply chain challenges and cost inflation, higher strategic growth investments, and one-time prior period benefits of \$7.2 and \$3.7, respectively, related to the sale of a product line and the recovery of lease termination costs.
- Income from continuing operations was \$1.45 per diluted share, an increase of \$0.14 as compared to the prior year, primarily due to higher operating income, as discussed above. Adjusted income from continuing operations was \$1.49 per diluted share, an increase of \$0.16 as compared to the prior year.

(a) See the section titled "[Key Performance Indicators and Non-GAAP Measures](#)" for a definition and reconciliation of organic revenue.

### Motion Technologies

MT revenue for the three and six months ended June 29, 2024 increased by \$15.7 and \$43.3, respectively. The increases in both periods were primarily driven by higher sales volume in our Friction OE business of 5% and 7%, respectively, and in our KONI business of 18% and 15%, respectively. The increases during the three and six month periods were partially offset by unfavorable foreign currency translation of \$7.6 and \$9.9, respectively. Excluding the impact of foreign currency translation, organic revenue during the three and six month periods increased by \$23.3 and \$53.2, respectively.

In July 2024, the Company completed the sale of its Wolverine business to an unrelated third party. Wolverine generated approximately \$158 of revenue in 2023.

## Industrial Process

IP revenue for the three and six months ended June 29, 2024 increased by \$37.1 and \$104.5, respectively, primarily driven by the acquisition of Svanehøj, which occurred in January 2024 and contributed \$33.4 and \$69.2, respectively, to total revenue growth. In addition, both periods benefited from higher sales volume and pricing actions. The three month period saw growth in our aftermarket business of 7%, which was primarily attributable to the general industrial and energy markets. The six month period saw growth in pump projects of 26%, primarily attributable to the energy market. The increases in revenue during the three and six month periods were partially offset by unfavorable foreign currency translation of \$3.9 and \$5.7, respectively. Excluding the impacts from the acquisition and foreign currency translation, organic revenue for the three and six month periods increased by \$7.6 and \$41.0, respectively.

## Connect & Control Technologies

CCT revenue for the three and six months ended June 29, 2024 increased by \$19.6 and \$37.1, respectively, primarily driven by higher sales volume and pricing actions. Both periods saw growth in connector sales of 16% and 12%, respectively, and component sales of 6% and 10%, respectively, particularly within the aerospace and defense markets. In addition, the acquisition of Micro-Mode, which occurred in May 2023, contributed \$1.6 and \$7.2, respectively, to total revenue growth. The increases in revenue during both periods were partially offset by unfavorable foreign currency translation of \$1.2 and \$1.3, respectively. Excluding the impacts from the acquisition and foreign currency translation, organic revenue for the three and six month periods increased by \$19.2 and \$31.2, respectively.

## GROSS PROFIT

Gross profit for the three months ended June 29, 2024 and July 1, 2023 was \$316.1 and \$280.0, respectively, reflecting gross margins of 34.9% and 33.6%, respectively. Gross profit for the six months ended June 29, 2024 and July 1, 2023 was \$616.9 and \$541.9, respectively, reflecting gross margins of 34.0% and 33.2%, respectively. The increases in gross profit and margin for both periods were primarily driven by increases in revenue, as described above, and productivity savings. The increases in gross profit and margin were partially offset by increases in material, labor and overhead costs, which were driven by inflationary pressures as discussed above. See section titled, "[Macroeconomic Conditions](#)", for further information.

## OPERATING EXPENSES

The following table summarizes our operating expenses, including by segment.

	Three Months Ended			Six Months Ended		
	June 29, 2024	July 1, 2023	Change	June 29, 2024	July 1, 2023	Change
General and administrative expenses	\$ 76.8	\$ 68.4	12.3 %	\$ 148.3	\$ 136.7	8.5 %
Sales and marketing expenses	50.6	43.9	15.3 %	100.7	86.8	16.0 %
Research and development expenses	29.7	25.7	15.6 %	59.7	52.1	14.6 %
Total operating expenses	\$ 157.1	\$ 138.0	13.8 %	\$ 308.7	\$ 275.6	12.0 %
Total operating expenses by segment:						
Motion Technologies	\$ 44.5	\$ 42.6	4.5 %	\$ 88.9	\$ 86.4	2.9 %
Industrial Process	62.8	53.1	18.3 %	118.5	101.7	16.5 %
Connect & Control Technologies	36.5	31.7	15.1 %	70.2	63.1	11.3 %
Corporate & Other	13.3	10.6	25.5 %	31.1	24.4	27.5 %

General and administrative (G&A) expenses increased \$8.4 and \$11.6 for the three and six months ended June 29, 2024, respectively. The increases in both periods were primarily driven by higher restructuring, personnel, and incentive-based compensation costs and the additions of Svanehøj and Micro-Mode in January 2024 and May 2023, respectively. The increases in both periods were partially offset by favorable foreign currency impacts and lower bad debt expense.

Sales and marketing expenses increased \$6.7 and \$13.9 for the three and six months ended June 29, 2024, respectively, primarily driven by higher personnel costs and the additions of Svanehøj and Micro-Mode.

Research and development expenses increased \$4.0 and \$7.6 for the three and six months ended June 29, 2024, respectively, primarily driven by higher personnel costs and continued strategic investments to support innovation and new product development.

## OPERATING INCOME

The following table summarizes our operating income and margin by segment.

	Three Months Ended			Six Months Ended		
	June 29, 2024	July 1, 2023	Change	June 29, 2024	July 1, 2023	Change

Consolidated operating margin	17.6 %	17.0 %	60 bps	17.0 %	16.3 %	70 bps

MT operating income for the three and six months ended June 29, 2024 increased \$13.5 and \$30.7, respectively, primarily due to higher revenue, as discussed above, productivity savings, and lower raw material costs. The increases during both periods were partially offset by unfavorable sales mix and higher labor costs.

IP operating income for the three and six months ended June 29, 2024 decreased \$0.6 and increased \$7.9, respectively. The decrease in the three-month period was primarily driven by higher material, labor, overhead, and restructuring costs, and M&A costs related to the acquisition of Svanehøj. This decrease was partially offset by higher revenue, as discussed above. The increase in the six-month period was primarily driven by higher revenue, as discussed above, and productivity savings. This increase was partially offset by higher material, labor, overhead, and M&A costs and unfavorable sales mix.

CCT operating income for the three and six months ended June 29, 2024 increased \$7.0 and \$10.3 primarily driven by higher revenue, as discussed above, and productivity savings. The increases during both periods were partially offset by a prior year gain of \$7.2 from the sale of a product line, higher material costs, and unfavorable foreign currency translation impacts.

Other corporate costs for the three and six months ended June 29, 2024 increased \$2.9 and \$7.0, respectively. The increase in the six-month period was primarily driven by a one-time benefit of \$3.7 in the prior year period related to the recovery of lease termination costs and higher personnel-related costs.

## INTEREST AND NON-OPERATING EXPENSES, NET

The following table summarizes our interest and non-operating income and expenses.

	Three Months Ended			Six Months Ended		
	June 29, 2024	July 1, 2023	Change	June 29, 2024	July 1, 2023	Change
Interest expense	\$ 7.4	\$ 4.5	64.4 %	\$ 15.1	\$ 11.2	34.8 %
Interest income	(1.6)	(2.0)	(20.0)%	(3.4)	(4.6)	(26.1)%
Miscellaneous income, net	—	(0.1)	(100.0)%	(1.5)	(0.9)	66.7 %
Non-operating postretirement (income) expense, net	(0.2)	0.1	300.0 %	(0.2)	0.3	166.7 %
Total interest and non-operating expenses, net	\$ 5.6	\$ 2.5	124.0 %	\$ 10.0	\$ 6.0	66.7 %

The increase in total interest and non-operating expenses, net for the three and six months ended June 29, 2024 was primarily driven by an increase in interest expense due to higher average outstanding long-term debt in connection with our acquisition of Svanehøj.

## INCOME TAX EXPENSE

The following table summarizes our income tax expense and effective tax rate (ETR).

	Three Months Ended			Six Months Ended		
	June 29, 2024	July 1, 2023	Change	June 29, 2024	July 1, 2023	Change
Income tax expense	\$ 33.0	\$ 30.6	7.8%	\$ 65.8	\$ 50.7	29.8 %
Effective tax rate	21.5 %	21.9 %	(40)bps	22.1 %	19.5 %	260 bps

The decrease in the ETR for the three months ended June 29, 2024 was due to the recognition of a U.S. federal deferred tax asset as part of a prior year acquisition. The increase in the ETR for the six months ended June 29, 2024 was due to prior year benefits of \$16.3 from valuation allowance reversals on deferred tax assets in Germany and \$4.9 from filing an amended 2017 consolidated federal tax return. These benefits were partially offset by a prior year expense of \$14.1 relating to an Italian tax audit settlement covering tax years 2016-2022.

In October 2021, more than 135 countries and jurisdictions agreed to participate in a “two-pillar” international tax approach developed by the Organisation for Economic Co-operation and Development (OECD), which includes establishing a global minimum corporate tax rate of 15 percent. The OECD published Tax Challenges Arising from the Digitalisation of the Economy — Global Anti-Base Erosion Model Rules (Pillar Two) in December 2021 and subsequently issued additional commentary and administrative guidance clarifying several aspects of the model rules. Since the model rules have been released, many countries have now enacted Pillar Two-related laws, some of which became effective January 1, 2024, and it is anticipated that many more will follow suit throughout 2024. As of June 29, 2024, the Company does not expect Pillar Two taxes to have a significant impact on its 2024 financial statements.

See Note 5, [Income Taxes](#), to the Consolidated Condensed Financial Statements for further information.

## LIQUIDITY AND CAPITAL RESOURCES

### *Funding and Liquidity Strategy*

We monitor our funding needs and execute strategies to meet overall liquidity requirements, including the management of our capital structure, on both a short- and long-term basis. Significant factors that affect our overall management of liquidity include our cash flow from operations, credit ratings, the availability of commercial paper, access to bank lines of credit, term loans, and the ability to attract long-term capital on satisfactory terms. We assess these factors along with current market conditions on a continuous basis, and as a result, may alter the mix of our short- and long-term financing when it is advantageous to do so. We expect to have enough liquidity to fund operations for at least the next 12 months and beyond.

We manage our worldwide cash requirements considering available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We support our growth and expansion in markets outside of the U.S. through the enhancement of existing products and development of new products, increased capital spending, and potential foreign acquisitions. We look for opportunities to access cash balances in excess of local operating requirements to meet our global liquidity needs in a cost-efficient manner. We transfer cash between certain international subsidiaries and the U.S. when it is cost effective to do so. During the six months ended June 29, 2024, we had net cash distributions from foreign countries to the U.S. of \$87.9. During the year ended December 31, 2023, we had net cash distributions from foreign countries to the U.S. of \$357.5. The timing and amount of any additional future distributions will be evaluated based on our jurisdictional cash needs.

The amount and timing of dividends payable on our common stock are within the sole discretion of our Board of Directors and will be based on, and affected by, several factors, including our financial position and results of operations, available cash, expected capital spending plans, prevailing business conditions, and other factors the Board of Directors deems relevant. Therefore, we cannot provide any assurance as to what level of dividends, if any, will be paid in the future. In the second quarter of 2024, we declared a dividend of \$0.319 per share for shareholders of record on June 3, 2024, which was a 10% increase from the quarterly dividends of \$0.29 that were declared in 2023. Dividend payments during the six months ended June 29, 2024 amounted to \$52.6.

From time to time, the Company may repurchase shares of its stock on the open market. The timing of any repurchases and the actual number of shares repurchased depends on a variety of factors, including remaining authorization under existing Board-approved share repurchase programs, the Company's stock price, restrictions under the Company's debt obligations, other uses for capital, the dilutive impact of shares issued during the period related to the Company's long-term incentive plans, impacts on the value of remaining shares, and market and economic conditions. During the six months ended June 29, 2024, we spent \$79.0 on open-market share repurchases under our share repurchase programs. During the six months ended July 1, 2023, we spent \$60.0 on open-market share repurchases under our share repurchase programs. All repurchased shares are retired immediately following the repurchases. See Part II, Item 2, [Unregistered Sales of Equity Securities and Use of Proceeds](#), for additional information.

### *Commercial Paper*

When available and economically feasible, we have accessed the commercial paper market through programs in place in the U.S. to supplement cash flows generated internally and to provide additional short-term funding.

The following table presents our outstanding commercial paper borrowings.

	June 29, 2024	December 31, 2023
Commercial Paper Outstanding - U.S. Program	\$ 354.6	\$ 184.9

From December 31, 2023 to June 29, 2024, we increased our borrowings under the U.S. commercial paper program to partially finance the acquisition of Svanehøj. See Note 13, [Debt](#), to the Consolidated Condensed Financial Statements for further information.

All outstanding commercial paper for both periods had maturity terms of less than three months from the date of issuance.

**Revolving Credit Agreement**

On August 5, 2021, we entered into a revolving credit facility agreement with a syndicate of third party lenders including Bank of America, N.A., as administrative agent (the 2021 Revolving Credit Agreement). The 2021 Revolving Credit Agreement matures in August 2026 and provides for an aggregate principal amount of up to \$700 of (i) revolving extensions of credit (the revolving loans) outstanding at any time, and (ii) letters of credit for a face amount of up to \$100 at any time outstanding. Subject to certain conditions, we are permitted to terminate permanently the total commitments and reduce commitments by a minimum aggregate amount of \$10 or any whole multiple of \$1 in excess thereof. Borrowings under the credit facility are available in U.S. dollars, Euros, British pound sterling or any other currency that may be requested by us, subject to the approval of the administrative agent and each lender. We are permitted to request that lenders increase the commitments under the facility by up to \$350 for a maximum aggregate principal amount of \$1,050; however, this is subject to certain conditions and therefore may not be available to us. As of June 29, 2024 and December 31, 2023, we had no outstanding borrowings under the 2021 Revolving Credit Agreement. See Note 13, [Debt](#), to the Consolidated Condensed Financial Statements for further information.

**Term Loan**

On January 12, 2024, ITT Italia S.r.l. (ITT Italia), an indirect wholly owned subsidiary of ITT, entered into a facility agreement (the ITT Italia Credit Agreement), among the Company, as a guarantor, ITT Italia, as borrower, and BNP Paribas, Italian Branch, as bookrunner, sole underwriter and global coordinator, mandated lead arranger and agent.

The ITT Italia Credit Agreement has an initial maturity of three years and provides for term loan borrowings in an aggregate principal amount of €300 million (or \$328.9), €275 million (or \$301.5) of which have been used to finance the Company's acquisition of Svanehøj, which closed on January 19, 2024. Total outstanding borrowings under the facility were €175 million, or \$187.2, as of June 29, 2024. See Note 13, [Debt](#), to the Consolidated Condensed Financial Statements for further information.

On July 22, 2024, the Company completed the sale of its Wolverine business to an unrelated third party for approximately \$171. Proceeds from the sale are expected to be used to pay down the outstanding balance on the ITT Italia Credit Agreement.

**Subsequent Event**

On July 30, 2024, the Company entered into a definitive agreement to acquire kSARIA Parent, Inc., the parent corporation of kSARIA Holding Corporation (kSARIA) for a purchase price of approximately \$475, subject to customary closing adjustments. The acquisition is expected to close during the third quarter of 2024. In order to finance the acquisition of kSARIA, the Company expects to borrow under a new term loan credit facility in the third quarter of 2024.

### Sources and Uses of Liquidity

Our principal source of liquidity is our cash flow generated from operating activities, which provides us with the ability to meet the majority of our short-term funding requirements. The following table summarizes net cash provided by or used in operating, investing, and financing activities from continuing operations, as well as net cash from discontinued operations.

For the Six Months Ended	June 29, 2024	July 1, 2023
Operating activities	\$ 215.5	\$ 197.8
Investing activities	(460.6)	(119.8)
Financing activities	213.8	(176.3)
Foreign exchange	(17.2)	(0.4)
Total net cash from continuing operations	(48.5)	(98.7)
Net cash from discontinued operations	(0.1)	(0.2)
Net change in cash and cash equivalents	\$ (48.6)	\$ (98.9)

#### Operating Activities

The increase in net cash from operating activities of \$17.7 was primarily due to an increase in segment operating income and improved inventory management, which was partially offset by higher incentive compensation payments in the current period.

#### Investing Activities

The decrease in net cash from investing activities of \$340.8 was mainly driven by the acquisition of Svanebjerg. Refer to Note 18, [Acquisitions and Divestitures](#), to the Consolidated Condensed Financial Statements for further information.

#### Financing Activities

The increase in net cash from financing activities of \$390.1 was mainly driven by an increase in commercial paper borrowings and long-term debt to finance the acquisition of Svanebjerg. Refer to Note 13, [Debt](#), to the Consolidated Condensed Financial Statements for further information. The increase was partially offset by an increase in open-market share repurchase activity. Refer to Note 15, [Capital Stock](#), to the Consolidated Condensed Financial Statements for further information.

## KEY PERFORMANCE INDICATORS AND NON-GAAP MEASURES

Management reviews a variety of key performance indicators including revenue, operating income and margin, and earnings per share. In addition, we consider certain measures to be useful to management and investors when evaluating our operating performance for the periods presented. These measures provide a tool for evaluating our ongoing operations and management of assets from period to period. This information can assist investors in assessing our financial performance and measures our ability to generate capital for deployment among competing strategic alternatives and initiatives, including, but not limited to, acquisitions, dividends, and share repurchases. Some of these metrics, however, are not measures of financial performance under accounting principles generally accepted in the United States of America (GAAP) and should not be considered a substitute for measures determined in accordance with GAAP. We consider the following non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, to be key performance indicators for purposes of our reconciliation tables.

- “Organic revenue” is defined as revenue, excluding the impacts of foreign currency fluctuations and acquisitions. The period-over-period change resulting from foreign currency fluctuations is estimated using a fixed exchange rate for both the current and prior periods. We believe that reporting organic revenue provides useful information to investors by facilitating comparisons of our revenue performance with prior and future periods and to our peers.

Reconciliations of revenue to organic revenue for the three and six months ended June 29, 2024 are provided below.

Three Months Ended June 29, 2024	Motion Technologies	Industrial Process	Connect & Control Technologies	Eliminations	Total ITT

- “Adjusted operating income (loss)” is defined as operating income (loss), adjusted to exclude special items that include, but are not limited to, restructuring, certain asset impairment charges, certain acquisition- and divestiture-related impacts and unusual or infrequent operating items. Special items represent charges or credits that impact current results, which management views as unrelated to the Company’s ongoing operations and performance. “Adjusted operating margin” is defined as adjusted operating income (loss) divided by revenue. We believe that these financial measures are useful to investors and other users of our financial statements in evaluating ongoing operating profitability, as well as evaluating operating performance in relation to our competitors.

Reconciliations of operating income (loss) to adjusted operating income (loss) for the three and six months ended June 29, 2024 and July 1, 2023 are provided below.

- “Adjusted income from continuing operations” is defined as income from continuing operations attributable to ITT Inc. adjusted to exclude special items that include, but are not limited to, restructuring, certain asset impairment charges, certain acquisition- and divestiture-related impacts, income tax settlements or adjustments and unusual or infrequent items. Special items represent charges or credits, on an after-tax basis, that impact current results, which management views as unrelated to the Company’s ongoing operations and performance. “Adjusted income from continuing operations per diluted share” (adjusted EPS) is defined as adjusted income from continuing operations divided by diluted weighted average common shares outstanding. We believe that adjusted income from continuing operations and adjusted EPS are useful to investors and other users of our financial statements in evaluating ongoing operating profitability, as well as in evaluating operating performance in relation to our competitors.

Reconciliations of adjusted income from continuing operations attributable to ITT to income from continuing operations attributable to ITT and adjusted income from continuing operations attributable to ITT per diluted share to income from continuing operations attributable to ITT per diluted share (EPS) for the three months ended June 29, 2024 and July 1, 2023 are provided below. - (c) The tax impact of each adjustment is determined using the jurisdictional tax rate of where the expense or benefit occurred.
- (d) The three months ended June 29, 2024 included a tax benefit to record a net operating loss deferred tax asset related to a prior year acquisition of \$(2.0), tax expense on distributions of non-U.S. income of \$1.0, and other tax-related special items of \$1.0. The six months ended June 29, 2024 included expense (benefits) from tax on undistributed

foreign earnings of \$2.4, a tax benefit to record a net operating loss deferred tax asset related to a prior year acquisition of \$(2.0), and other tax special items of \$1.3.

The three months ended July 1, 2023 included tax expense on distributions of non-U.S. income (\$1.2), and other tax-related special items (\$0.8). The six months ended July 1, 2023 included benefits from valuation allowance reversals (\$17.5) and the amendment of our federal tax return (\$4.9), partially offset by a settlement expense related to a tax audit in Italy (\$14.3) and tax on future distribution of foreign earnings (\$2.9).

## RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2, [Recent Accounting Pronouncements](#), to the Consolidated Condensed Financial Statements for information on recent accounting pronouncements.

## CRITICAL ACCOUNTING ESTIMATES

The preparation of the Company's financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. The Company believes the most complex and sensitive judgments, because of their significance to the Consolidated Condensed Financial Statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Management's Discussion and Analysis of Financial Condition and Results of Operations in the [2023 Annual Report](#) describes the critical accounting estimates that are used in the preparation of the Consolidated Condensed Financial Statements. Actual results in these areas could differ from management's estimates. There have been no material changes concerning the Company's critical accounting estimates as described in our [2023 Annual Report](#).

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in the information concerning market risk as stated in our [2023 Annual Report](#). See Note 17, [Derivative Financial Instruments](#), to the Consolidated Condensed Financial Statements for information on the Company's use of derivative financial instruments to mitigate exposure from foreign currency exchange rate fluctuations and commodity price fluctuations.

## ITEM 4. CONTROLS AND PROCEDURES

### Evaluation of Disclosure Controls and Procedures

The Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act) as of the end of the period covered by this Report. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this Report, the Company's disclosure controls and procedures were effective.

### Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

From time to time, we are involved in legal proceedings that are incidental to the operation of our business. For a discussion of legal proceedings, see Note 16, [Commitments and Contingencies](#), to the Consolidated Condensed Financial Statements.

### ITEM 1A. RISK FACTORS

Reference is made to the risk factors set forth in Part I, Item 1A, "Risk Factors", of our [2023 Annual Report](#), which are incorporated by reference herein. There have been no material changes with regard to the risk factors disclosed in such report.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On October 30, 2019, the Board of Directors approved an indefinite term \$500 share repurchase program (the 2019 Plan). On October 4, 2023, the Board of Directors approved an indefinite term \$1,000 open-market share repurchase program (the 2023 Plan).

During the second quarter of 2024, we exhausted the remaining capacity under the 2019 Plan. As of June 29, 2024, there was \$1,000 of remaining authorization under the 2023 Plan.

Share repurchase activity during the three months ended June 29, 2024 is shown in the table below.

## ITEM 5. OTHER INFORMATION

### Disclosure pursuant to Section 219 of the Iran Threat Reduction & Syria Human Rights Act (ITRA)

This disclosure is made pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 which added subsection (r) to Section 13 of the Exchange Act (Section 13(r)). Section 13(r) requires an issuer to disclose in its annual or quarterly reports whether it or any of its affiliates have knowingly engaged in certain activities, transactions or dealings relating to Iran. Disclosure of such activities, transactions or dealings is required even when conducted outside the United States by non-U.S. persons in compliance with applicable law, and whether or not such activities are sanctionable under U.S. law.

In its [2012 Annual Report](#), ITT described its acquisition of all the shares of Joh. Heinr. Bornemann GmbH (Bornemann) in November 2012, as well as certain activities of Bornemann in Iran and the wind down of those activities in accordance with a General License issued on December 26, 2012 by the Office of Foreign Assets Control (the General License). As permitted by the General License, on or before March 8, 2013, Bornemann completed the wind-down activities and ceased all activities in Iran. As required to be disclosed by Section 13(r), the gross revenues and operating income to Bornemann from its Iranian activities subsequent to its acquisition by ITT were 2.2 million euros and 1.5 million euros, respectively. Prior to its acquisition by ITT, Bornemann issued a performance bond to its Iranian customer in the amount of 1.3 million euros (the Bond). Bornemann requested that the Bond be canceled prior to March 8, 2013; however, the former customer refused this request and as a result the Bond remains outstanding. Bornemann did not receive gross revenues or operating income, or pay interest, with respect to the Bond in any subsequent periods through June 29, 2024, however, Bornemann did pay fees of approximately 3 thousand euros during the six months ended June 29, 2024 and annual fees of 7 thousand euros during 2023 to the German financial institution which is maintaining the Bond.

### Rule 10b5-1 Trading Plans

During the three months ended June 29, 2024, none of the Company's directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Exchange Act Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement" as defined in Item 408 of Regulation S-K.
