Form 10-K for the Fiscal Year Ended December 31, 2022

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, page 25

1. You present total segment operating income and margin as well as total adjusted segment operating income and margin, which are non-GAAP measures and should be reconciled to the most directly comparable GAAP measure. However, once reconciled it would appear such measures may include adjustments that are inconsistent with the applicable non-GAAP guidance. In this regard, adjusting for Corporate expenses appears to present non-GAAP measures that exclude normal, recurring, cash operating expenses. Therefore, please revise to remove these measures from your periodic filings, Form 8-K earnings releases, and earnings presentations on your website. Refer to Item 10(e)(1)(i)(B) of Regulation S-K and

Questions 100.01 and 104.04 of the non-GAAP C&DIs.

2. Please revise to reconcile total segment operating income to consolidated income before income taxes and discontinued operations or consolidated income after those items. Further, remove the reconciliation to consolidated operating income, as well as the total segment operating margin percentages as neither are part of the required reconciliation. Refer to ASC 280-10-50-30b.

In closing, we remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
